**WOMEN IN DEFENCE AWARDS
WINNERS ANNOUNCED
THIS MONTH**

ADF WEAPONS AND FORCE PROTECTION

The ADF has seen its operational tempo slow down but there is still a lot going on in the Middle East and in the region. *ADM* will explore the key weapons for each service and how they support the joint focus of the ADF.

SURVEILLANCE IN THE LAND DOMAIN

ISR is the bedrock of the ADF's situational awareness, both tactically and strategically. What are the emerging ISR challenges, and what does the ADF need to do to meet them to become a true 5th Gen force? The path ahead will be a blend of smart technology, innovative thinking and the application of emerging technologies. *ADM* shows the way forward.

SUPPLY CHAIN MANAGEMENT

Supply chain management and effective logistics can maximize customer value and achieve a sustainable competitive advantage to the ADF. *ADM* aims to look at how Defence, Primes and SMEs are working together in the space.
