NATIONAL WIND TUNNEL WORKSHOP

5 APR

- *Workshop - Defence Science and Technology*

A workshop to consider a new National Wind Tunnel Capability will be held on 11-12 April at the University of Melbourne.

The initiative for this workshop has arisen from discussions between a number of universities across Australia and DST Group. These organisations have significant wind tunnel facilities that will need to be replaced or refurbished in the next decade in order to maintain capability. We are expecting that aerospace and automotive companies will participate in the workshop.

With the impending developments at Fishermans Bend, and the likely co-location of industry, education and research capabilities, there is a clear opportunity for collaborative planning and shared usage of new facilities. This will bring benefits in capability, operating costs and resilience.

Closing Date: Friday 5 April 2019

OTHER GOVERNMENT DEPARTMENT TENDERS

FIRE, LIFE SAFETY AND ANCILLARY SYSTEMS WORKS PANEL

PL000046

8 APR

- Request for Tender - VicTrack

VicTrack is seeking tenders from suitably qualified and experienced contractors for the maintenance of essential safety systems.

To comply with its obligations as a building owner and under the Building Regulations 2018, VicTrack must ensure that Essential Safety Measures (ESM) are maintained so that they operate satisfactorily. VicTrack has extended the scope of items considered part of ESM maintenance and repairs to include electrical equipment – namely switchboards and electrical systems supporting or supplying an ESM – referring to them collectively as Ancillary Systems. The proposed panel for providing repairs to ESM equipment and Ancillary Systems has been named the Fire, Life Safety and Ancillary Systems Works Panel.

It is intended that VicTrack will identify suitable providers and implement a Panel for reactive and proactive works beyond inspection and basic maintenance relating to the fire, life safety and ancillary systems in its buildings and properties.
