

## TOP 40 AND TOP 20 SMES 2021 PROJECT REVIEW

### TOP 40 and TOP 20 SMEs SURVEY REPORT

The December 2021-January 2022 edition of ADM contains the magazine's highly-anticipated annual Top 40 Defence Contractors and Top 20 SMEs survey. Although the Australian economy largely recovered from last year's recession, there has still been significant disruption as the country looks for a way out of the pandemic. Meanwhile, the geopolitical tailwinds behind Australia's defence sector continue unabated. How has Defence Industry performed in this dynamic environment?

The only survey of its kind, the Top 40 and Top 20 lists are an important data set in the state of the Defence Industry in Australia, running for over 20 years.

### PROJECT REVIEW

Which major projects have made headlines in 2021? ADM intends to examine the progress of a range of important projects across the land, air, sea, cyber and space domains – including air combat development, land warfare capability, and naval shipbuilding - and how this is viewed on a regional background. Our coverage will also look to inform readers ahead of 2022.
